

Touch the Clouds (Taste the Ground)

Good Old War

When you're at the top
You put yourself above all the others
It is easy to forget the place that you came from
But you won't believe what you see on your way down

I've been so high
I touched the clouds
I've been so low
I could taste the ground
Well it's all history
Look at me now
Look at me now

When you're at the bottom
You close your eyes and hear your heart beating
If you feel round then you might find something
Though you won't believe what you see when you're way down

I've been so high
I touched the clouds
I've been so low
I could taste the ground
Well it's all history
Look at me now
Look at me now

Now we know each other
You don't have to hide the feelings that you have
I know what you're going through 'cause I've been there
And you won't believe what you see when you're way down
No, you won't believe what you see on your way down

I've been so high
I touched the clouds
I've been so low
I could taste the ground
Well it's all history
Look at me now
Look at me now

On your way down

On your way down
