

Endless

Shapeshifter

Toss and turn it up till dawn, still can't rest my head can't rest my head

Patiently i wait for sleep, but all night c

Turn this night right upside down my world is at an end i made a mess.

If you took care right then all day you will get to see just what it is.

Just what it isCos i'm here

Here and now

All i feel

Said i'm drifting, free to rollAs the light becaves and the night ingraves.
