

# Bartenders, Etc...

**Dierks Bentley**

[Chorus]

Bartenders, barstools and barmaids  
A jukebox and a pocketful of change  
Just a few of my favorite things  
Bartenders, barstools and barmaids Bartenders listen when you talk  
Barstools are there when you can't walk  
And I'll always make a waitress my best friend  
Until the music stops and closin' time begins [Chorus] Outside lies a heart that's been broke  
But in here it's a world of song and smoke  
That way my eyes and ears can lie to me  
While I drink another shot of make believe [Chorus] Bartenders, barstools and barmaids
