Let's Sing Our Song

Jerry Reed

Woman, I can tell what's on your mind
'Cause I can see the love light shine
You want me to settle down
And quit all my ramblin' aroundCome on woman this heart of mine
Just lives one day at a time
Tomorrow is a brand new song
And I might be a-movin' it onSo baby, let's just sing our song while we're together
Let's not look no further than today
Love me the night, just hold on tight and be my woman
And don't let a puff of real feelin' slip awayBaby, you know that I ain't the kind
Who can settle down and walk on the line
And tomorrow I might be gone
So baby, let's sing our song, yeahBaby, let's just sing our song while we're together
Let's not look no further than today
Love me the night, just hold on tight and be my woman
And don't let a puff of real feelin' get awayBaby, you know that I ain't the kind
Who can settle down and walk on the line
Tomorrow I might be gone
So baby, let's sing our song
