

# Don't Get Me Wrong

## U.S. Bombs

You got a ticket to my place  
Short ride on the "L" train  
Get off between Broadway and main  
I forget the nameI'm in a rocket to Russia  
I'm wa?hin the Detectives  
Listen to a record at the end of the world  
Blame it on cainDon't get belong we don't be long  
I'm going to the other side, won't leave no tears behind  
(all I know) Don't get me wrongI'd rather shoot the moon and miss  
Aim at the gutter and make a hit  
We gotta get out before they eat us off  
There going softRiot gun'69 made a crash  
Wake in the city, the gangs all clashed  
Colors on black and white TV  
Made a smashDon't get me wrong
