

Boring

Lifer

Come and take a look at what I got inside
Steppin' up to me will make you question your mind
So step up step up and eat a piece of your pride
Even the big look kind of small So if you're gonna snooze ya loose and don't forget it
And if it happens again, guess you're never gonna get it
You'll never learn that you'll never knock me over
If you're offended by a freak stop coming to the show No more calling, everything will change
What will you do now that everything is rearranged?
Can you sit back and laugh about the things that I try?
Would you try for me? I'm fed up with everything but me
When I think back to how it used to be
Sit there and watch me pretend You bore me now, you bore me now
(What am I supposed to think)

Boring

(Somehow)

You think you're so much better than me Come and take a look at what you left behind
Steppin' up to me will make you question your mind
So step up step up and eat a piece of your pride
Even the big look kind of small So if you're gonna snooze ya loose and don't forget it
And if it happens again, guess you're never gonna get it
You'll never learn that you'll never knock me over
If you're offended by a freak stop coming to the show No more calling, everything will change
What will you do now that everything is rearranged?
Can you sit back and laugh about the things that I try?
Would you try for me? I'm fed up with everything but me
When I think back to how it used to be
Sit there and watch me pretend You bore me now, you bore me now
(What am I supposed to think)

Boring

(Somehow)

You think you're so much better than everybody You bore me now, you bore me now
(What am I supposed to think)

Boring

(Somehow)

You think you're so much better than everybody Come and take a look at what I got inside
Steppin' up to me will make you question your mind
So step up step up and eat a piece of your pride
Even the big look kind of small No more calling, everything will change
What will you do now that everything is rearranged?

Can you sit back and laugh about the things that I try?
Would you try for me? I'm fed up with everything but me
When I think back to how it used to be
Sit there and watch me pretend You bore me now, you bore me now
(What am I supposed to think)
Boring
