

Life Goes On

Angie Stone

One for the road, check it
Kind of natural, yeah Look at then and when you got caught up
Reminiscing 'bout the past, driving by on easy street
Thinking 'bout that we'd be here to last a long while
And real talks, every night and then an argument
But all in all, we both knew if nothing else, our love was Heaven sent Life goes on, life goes on
Life goes on, life goes on My brother Petey would say If you knew then like you know now
Would you get down the way you get down
Would you glorify, idolize, find the time, mystify 'bout life
Oh, why can't we be kinder, joy, that's hard to find
Lord, please give me a sign Some of us here right now
Don't think you'd ride on this thin ice without goin' down
'Cuz time is runnin' out and will you be able to reach solid ground
Can only sing the words, it's up to you to listen
Show you the path to the garden, you got to follow me in Life goes on, life goes on
Life goes on, life goes on Hey boo, here's to thanking you for all that we've been through
It taught me how to love myself and now
You, you and those I give my blessing and I hope
That's true for me and my, oh, Lord Life goes on, life goes on
Life goes on, life goes on Life goes on, life goes on
Life goes on, life goes on Life goes on, life goes on
Life goes on, life goes on
