

I'm Not Part Of Me

Cloud Nothings

[Verse 1]

It starts right now, that's the way that I was before
But I can't be caught how I was those days anymore
I'm learning how to be here and nowhere else
How to focus on what I can do myself

[Hook 1 x2]

I'm not telling you all I'm going through
I'm not telling you all I'm going through
I'm not telling you all I'm going through
I feel fine

[Verse 2]

Leave it all to memory of
What we did when we were young and
Now you could just leave me on my own
Oh, moving toward a new idea
You're not what I really needed
Now you could just leave me on my own

[Hook 2]

But I'm not, I'm not you
You're a part of me, you're a part of me

[Verse 3]

It's over now as the way I was before
But I can't be caught how I was those days anymore
I'm learning how to be here and nowhere else
How to focus on what I can do myself

[Hook 1]

[repeat Verse 2]

[Hook 2]

[Bridge]

You're the thought that's haunting
You're the thought that's haunting me
You're the thought that's haunting

You're you're the thought that's haunting
You're the thought that's haunting me
You're the thought that's haunting me
You're the thought that's haunting me
You're you're the thought that's haunting
You're the thought that's haunting me
You're you're the thought that's haunting me
You're you're the thought that's haunting me
You're the thought that's haunting

[Hook 2]
