# Adrenaline

## Shinedown

Give me the wheel, so we can move a little faster.
I'll make it real, I'm not a glorious disaster.
What part of living says you gotta die?
I plan on burning through another nine lives.
One more for measure, that's ten for the soul.
That never sleeps so are you ready to go?
Bloodshot against the clear blue sky.
Tick tock I think the well is running dry.
My my, I can't lie.
I need a shot again, that sweet adrenaline.
Dead scared cause I'm fearless in the head.
Bang bang cause the needle's in the red.
My my, I can't lie.
I need a shot again, that sweet adrenaline.
My my!
My sweet a adrenaline.
Crack in the vision, who said the motivation's all wrong?
Not your decision, the detonation of a time bomb.
Which way is up, when your high is low?
It's time to find it are you ready to go?
Bloodshot against the clear blue sky.
Tick tock I think the well is running dry.
My my, I can't lie.
I need a shot again, that sweet adrenaline.
Dead scared cause am fearless in the head.
Bang bang cause the needle's in the red.
My, my, I can't lie.
I need a shot again, that sweet adrenaline.
My my!
My sweet a adrenaline.
My my just cant lie,
its the speed and the sound that I'm dying to try.
My my just cant lie,
its the love of the chase that created the ride!
Bloodshot against the clear blue sky.
Tick tock I think the well is running dry.
My my, I can't lie.
I need a shot again, that sweet adrenaline.
Dead scared cause I'm fearless in the head.

Bang bang cause the needle's in the red.
My my, I can't lie.
I need a shot again, that sweet adrenaline.
My my!
My sweet a adrenaline.
