Big Love

Tracy Byrd

You need a man to get lost in With a heart big enough to roam No more fences for you to look through With your heart caught in a strangle hold I've got a love full of wide open spacesI've got a big love, wild and free Room to grow as big as your dreams Deep as a river in a raging flood As endless as the stars above I've got a big loveWhen two hearts make a stand together On the solid rock of trust They could be a million miles from each other And still be side by side in love I want to love you like that foreverI've got a big love, wild and free Room to grow as big as your dreams Deep as a river in a raging flood As endless as the stars above I've got a big loveYou never dreamed you could have all you ever wanted Darlin' you can have it all with meI've got a big love, wild and free Room to grow as big as your dreams Deep as a river in a raging flood As endless as the stars above I've got a big love I've got a big loveI've got a big love I've got a big love
