

# Back to the Future (Part I)

## D'Angelo and The Vanguard

Traveling at the speed of light and then  
At the same time I'm in the same spot too  
The room was kept in  
'Bout the same way you left it  
With about the threats you mess in attitude  
Where ya' been with all your grin  
Until all your friends turn their backs on you  
Reminiscing over what you've been missing  
Could be just like cousins kissing  
That's taboo

I just wanna go back, baby  
Back to the way it was  
I just wanna go back, baby  
Back to the way it was  
I used to get real high, now I  
But now I'm just gettin' a buzz  
I wanna go back, baby  
Back to the way it was

If you win, no matter if you lose  
You got to come back again  
Pay some dues  
Back in Richmond, shit ain't changed a bit in  
Niggas with a little piss in got some attitudes  
I been wondering if I can ever again  
So if you're wondering about the shape I'm in  
I hope it ain't my abdomen that you're referring to  
This what I want you to listen to

Seasons may come and your luck just may run out  
And all that you'll have is some memories, oh

Said I just wanna go back, baby  
Back to the way it was, now, now, now  
Back to the way it was, now, now, now  
I used to get real high  
Now I'm just getting' a buzz, now, now, now  
I said back to the way it was, now, now, now  
I just wanna go back, baby

I just wanna go back, baby  
Back to the way it was, now, now, now  
Back to the way it was, now, now, now  
I used to get real high  
Now I'm just getting' a buzz, now, now, now  
Back to the way it was, now, now, now
