

# One and Only One

**Paul Brandt**

I thought love at first sight was a fate for someone else  
And you'd never catch me fallin' that fast myself  
But I didn't even need two seconds alone with you  
All it took was one and only one Now, I see me bein' faithful, me bein' true  
Holdin' on and never lettin' go of you  
Girl, look what you've done  
The only thing I want is you lovin' me  
And from now on the only thing I want to be  
Is your one and only one, one and only one You've got a heaven sent heart and an angel's touch  
Not to mention your kiss that I can't get enough of  
And when I see your smile this feelin' deep, down inside  
Tells me you're my one and only one Now, I see me bein' faithful, me bein' true  
Holdin' on and never lettin' go of you  
Girl, look what you've done  
The only thing I want is you lovin' me  
And from now on the only thing I want to be  
Is your one and only one, one and only one I didn't even need two seconds alone with you  
All it took was one and only one Now, I see me bein' faithful, me bein' true  
Holdin' on and never lettin' go of you  
Girl, look what you've done  
The only thing I want is you lovin' me  
And from now on the only thing I want to be  
Is your one and only one, one and only one
