All These Girls

Atlas Genius

We're related through a drunken speak
I was faded couldn't find my feet
As the lights came on there was nowhere else to goYou were to good for solay
We were on the way so was the day
As the cab pull up there was nowhere else to goWorld's apart (I fell right into you)
We didn't know and the sun was on its way
I didn't know (So I said that you can stay)
All these girls are not the same
All these girls are not the same as youSo quick but we took it slow
Had to face it that we didn't know
You sing the words and I'll pay you what I gotYour a wonder
I'm no patiences
Your just waiting
While will there then it goWorld's apart (I fell right into you)
We didn't know and the sun was on its way
I didn't know (So I said that you can stay)
All these girls are not the same
All these girls are not the same as youOn the town go
On the phone slow
I wanna stop with you
I wanna say I'm sorryAll these girls are not the same as you
(Are not the same as you)
All these girls are not the same as you
(Are not the same as you)
All these girls are not the same
(Are not the same)World's apart (I fell right into you)
We didn't know and the sun was on its way
I didn't know (So I said that you can stay)
All these girls are not the same
All these girls are not the same as you
All these girls are not the same
All these girls are not the same as you
