Use It Or Lose It

Molotov

Come feel the rush coming out of your speakers
Feel the power of the Molotov clica
You don't speak unless your spoken to
Be careful what you say when you do
'Cause you might find yourself en la calle
Tu ya sabes que me vale
I'm gonna sit back with a cold Kahuama
While my crew is out there bombing ya
There's a lesson, boy, that I'm gonna teach you
You mess with the bull you gonna get the salchicha
Cause you know que sentiste pasos
If you think you can fake it boy you'se an asshole
If you could take me out what's stopping ya
I'll pull out my gauge cold pop yeah
I'm giving you a chance so don't abuse it
If you got the skill use it or lose itIf you're gonna grab a mic, learn to use it
If you represent a crew, show and prove it
If you got a big ride, learn to cruise it
If you want to test this, learn to use itIf you're gonna grab a mic, learn to use it
If you represent a crew, show and prove it
If you got a big ride, learn to cruise it
If you want to test this, learn to use itOut of the cut view el Gringo Tiro Loco
I'm here to get the people prendido
So watcha want to do
Rap is not afraid of you
And neither homie is the Molotov crew
So in the cantina while I'm drinking my brew
If you wanna test this learn to lose
'Cause I'm gonna bruise ya, crack ya, end up on your back
If your girl steps in, won't hesitate to smack her
So if can't take a dump get off the commode
And if you don't come correct Jack hit the road
'Cause like a '57' chevy
I'm gonna cruise ya
You step in my way I'm gonna have to bruise ya
Break you, partirte la madre
Face down lying in the mothafuckin' calle
I'm giving you chance so don't abuse it
So if you got the skill use it or lose itIf you're gonna grab a mic, learn to use it

If you represent a crew, show and prove it
If you got a big ride, learn to cruise it
If you want to test this, learn to use itIf you're gonna grab a mic, learn to use it
If you represent a crew, show and prove it
If you got a big ride, learn to cruise it
If you want to test this, learn to use it
