Never Enough

Flickerstick

The radio sings for you
Alone in your bathroom
Can't handle anyone
You're caught with a smoking gun
The radio sings for you
And you say it's nothing new
Sleeping with everyone
Who you don't even like for fun
You're never enough
I think I'm losing touch
You think that you're so free
Why can't you see
You're never enough
The city it cries for you
The lies that you tell come true
No you don't ever sing for me
But the thieves and the clowns agree
The city it cries for you
Strange I'll be crying too
You'll never hear their song
How they wish you would sing along

You're never enough
I think I'm losing touch
You think that you're so free
Just like me
You're falling in love
What are you thinking of
You think that you're so free
Why can't you see
You're never enough
You're never enough
I think I'm losing touch
You think that you're so free
Just like me
You're falling in love
What are you thinking of
You think that you're so free
Why can't you see

You're never enough...
