

Blame It On the Summer

Basia

Day by day and night by night life's a dream, heaven sent
I am yours and you're mine, what more can I pray for
But every minute, every hour I play a waiting game
'Cause once again the spring is all around I know so well your smiling face, that greets me everyday
You stand by me, I stand by you, all's good and well
So why day by day and night by night I play a waiting game
'Cause my world will soon be turning upside down in summer Blame it on the summer, I can't help how
summer makes me feel
Blame in on the summer, I don't care if what I feel is real
Blame it on the summer, can't explain what summer makes me do
I want to break away and fly away
'Cause summer makes me run away from you Years go by, I play for time, resigned, come what may
You keep on loving me and I still keep on wishing
'Cause every hour, here in silence, the game remains the same
And the summer makes my world turn upside down, oh, summer Blame it on the summer, I can't help how
summer makes me feel
Blame in on the summer, I don't care if what I feel is real
Blame it on the summer, can't explain what summer makes me do
I want to break away and fly away
'Cause summer makes me run away from you I want to break away and fly away
Summer makes me run away
Summer makes me run away
Summer makes me run away
Summer makes me run away from you Blame it on the summer, I can't help how summer makes me feel
Blame in on the summer, I don't care if what I feel is real
Blame it on the summer, can't explain what summer makes me do
I want to break away and fly away
'Cause summer makes me run away from you Blame it on the summer
Blame it on the summer
Blame it on the summer
Blame it on the summer Blame it on the summer
I want to break away and fly away
Blame it on the summer
'Cause summer makes me run away from you Blame it on the summer
From you
