Hey Hey

Radiorama

Save, save yourself
Save your breath
Save, save a little hope for me
Take, take a rest
Take your time
Take, take the whole bottle of wine
Lay your head
Lay it down
Lay, lay yourself down on the ground
Stop me if I'm embarrassing myself
But I can let this slip away
Hey hey,
What do you think about maybe,
Staying around because lately

All I can think about's you
And you think
Could I be good for you
I think, what am I gonna do
All I know is I love being with you
Right, write the books
Right the wrongs
Right, write the little radio songs
See the light
See the signs
See in between the crooked lines
Help me if I'm embarrassing myself
I can't let this slip away
[Chorus x2]
