

If You've Got Love

Dave Mason

Let me take you through your sadness
Face the things you cannot meet
Let a sense of purpose fill your heart
Let your soul begin to speak The fears that have surrounded you
The sands of time will ease
All the burdens you have carried, Lord,
Know they're gonna be freed
Know they're gonna be freed Like a dream in the night
You keep calling to my heart
We'll get by, though the tears and the sighs
Will be trying to break us apart If you got love (If you got love)
You got a lover (You got a lover)
If you got love (If you've got love)
You got a lover (You got a lover) While drifting down this road
The strangest things unfold to you
The stories you thought never true
And you know that it's only begun This rain in my heart keeps on falling
This feeling for you still remains
I will try to be more than a friend to you
And I'll never refuse you again
No, I never refuse you again Like a dream in the night
You keep calling to my heart
We'll get by, though the tears and the sighs
Will be trying to break us apart If you've got love (If you've got love)
You got a lover (You got a lover)
If you got love (If you got love)
You got a lover (You got a lover) If you've got love (If you've got love)
Well, you got a lover (You've got a lover) Sweet, sweet love. (If you've got love)
(You got a lover) Feels so good. (If you've got love)
(You got a lover) (If you've got love)
(You got a lover) (If you've got love)
Hey, hey, hey, hey.
(You got a lover) (If you've got love)
[fade out]
