All Night Long

Swv

Baby, you can call on me
Anytime that you feel the need
And I'll be there in a hurry
Givin' you the best of meAnd baby, you know I keep it nice and warm to satisfy
Baby, you know that I am always hot for you
And if there's any kinda love that will exemplify
My sweetie, I have got that kinda love times twoBoy, I'll do you all night long
Do you anyway you want
I will do you all night long
I wanna please you
Don't wanna tease youYou can melt in my body
And I will slowly melt onto you
Caress your face in my valley
Let me feel the sweetness of youAnd baby, you know I keep it special each and every time
I never do nothin' once and never quite the same
And baby, you know if there is anything you want from me
I will supply so you can have it your wayBoy, I'll do you all night long
Do you anyway you want
I will do you all night long
I wanna please you
Don't wanna tease youHere's the vibe, there's candlelight
As I undress for you, baby
A sip of wine, we take our time
Then I undress you tooI look at you, you look at me
And then we both embrace
And then we just let nature take it's placeBoy, I'll do you all night long
Do you anyway you want
I will do you all night long
I wanna please you
Don't wanna tease youDo you anyway, any kinda way
Do it anyway you want
Do you anyway, any kinda way
Do it with you all night long
Do you anyway, any kinda way
Do it anyway you want
I wanna please you
Don't wanna tease youDo you anyway, any kinda way
Do it anyway you want
Do you anyway, any kinda way

Do it to you all night long
Do you anyway, any kinda way
Do it anyway you want
I wanna please you
Don't wanna tease youAll night, all night long
Do you anyway you want
Hey, yeah yeah
I'll do you all night long
