Wishing I Was 23

R5

Maybe She's just too old for me
Livin' in a teenage fantasy
Feelin' there's so much we could be
She's got me wishing, wishing I was 23Yeah, she's crazy but I don't care
She's sexy and she's a millionaire
The way she gets me is so unfairNot your typical rich girlShe's smokin' hot if you know what I mean
Tight jeans and she loves her photography
and everything that's in betweenYou know she's been around the world(Chorus)
I know (she's graduated)
I'm not (quite educated)
I'm young, you know (age is overrated)Maybe she's just to old for me
Livin' in a teenage fantasy
Feelin' there's so much we could be
Everytime I'm with her callin' me a dreamerMaybe she's just out of my reach
Maybe her boyfriend's a marine
Even though I'm nameless (HEY)
She's famous (HEY)
She's got me wishing
Wishing I was 23(Woah Oh)
Oh
(Woah Oh)
Wishing I was 23
(Woah)
OhI think about her every day
Goin' insane thinkin' bout what to say
What am I doin' anyway?Am I even on her radar?(Chorus)
I know (she's graduated)
I'm not (quite educated) Nope.
I'm young, you know (age is overrated)Maybe she's just to old for me
Livin' in a teenage fantasy
Feelin' there's so much we could be
Everytime I'm with her callin' me a dreamer
Maybe she's just out of my reach
Maybe her boyfriend's a marine
Even though I'm nameless (HEY)
She's famous (HEY)
She's got me wishing
Wishing I was 23(Woah Oh)
(Woah Oh)

(Woah Oh)And if I was older
She would let me take her
To watch the stars the stars at night
We could dance we could kiss underneath moonlight
And if it got colder
She would let me hold her
Wrapped up in fairytales
Gotta wake up from this dream(Oh) YeahMaybe she's just to old for me
Livin' in a teenage fantasy
Feelin' there's so much we could be
She's got me wishingMaybe she's just out of my reach
Maybe her boyfriend's a marine
Even though I'm nameless (HEY)
She's famous (HEY)
She's got me wishing
Wishing I was 23(Woah Oh)
Oooh wishing I was 23
(Woah Oh)
I've got her wishing, wishing she was 17
(Woah Oh)
Oooh wishing I was 23
Yeah, Wishing I was 23
