Yours If You Like

Oleander

Caught a glimpse and like a fool I let her in
Consequently I discovered there's no endOpen your eyes
And try to grow into your size
And all and always try to realizeWhere you are
And what you want
'Cause it's yours if you likeCaught a glimpse and like a fool I let her in
Hard to tell why like a fool I let her winOpen your eyes
And try to grow into your size
And all and always try to realizeWhere you are
And what you want
'Cause it's yours if you likeWhere you are
And what you want
'Cause it's yours if you likeOpen your eyes
And try to grow into your size
And all and always try to realize
And all and always try to realize
