

Being Alright

Tsunami Bomb

When things are bad as they can be,
Dark curtains rise so you can see...That the sun sinks to the west
And blue fills the sky.
Everyone feels a great relief.
The change in wind has changed our lives, has changed our lives! Nobody knows what's in your future.
Though death and unhappiness are certain.
But one thing I can say for sure:
honesty's the perfect cure for any stress induced disease you have...
BELIEVE! what you do is right,
EXPLAIN! your reasonings,
And everything will be alright...And the sun sinks to the west
And blue fills the sky.
Everyone feels a great relief.
The change in wind has changed our lives, has changed our lives!
