

Swet

Nick Carter

Maybe it's the leather or something in my drink
But you're the chili pepper, the way you're burning me
Just take it off tonight
Ooh baby
Sexy electrolytes Girl, I want it all
Running down my body like a waterfall
Go on drip it on me
Make that Mercury rise when I'm touching your thighs
Baby, all over me
Taking a ride 'til we slip and we slide
Baby, turn up the heat
Swet
Swet I'll do a double feature
I go in back to back
Up and down the bleachers
Round and round the track
Just take it off tonight
Ooh baby
Sexy electrolytes Girl, I want it all
Running down my body like a waterfall
Go on drip it on me
Make that Mercury rise when I'm touching your thighs
Baby, all over me
Taking a ride 'til we slip and we slide
Baby, turn up the heat
Swet
Swet
Swet I'm drowning in your love, baby (swet)
I'm drowning in your love (swet)
I'm drowning in your love, baby (swet)
I'm drowning in your love Girl, I want it all
Running down my body like a waterfall
Go on drip it on me
Make that Mercury rise when I'm touching your thighs
Baby, all over me
Taking a ride 'til we slip and we slide
Baby, turn up the heat
Swet
