Real Meaning

A-ha

Don't change me
I'm gonna break if you try
Don't change you
You know the tears
I'm gonna cry
And I sure will
Miss us when we're gone
You're the real meaning of the sun
It shows you off to everyone
You're the real meaning of the sun
It shows you off to everyone
The real meaning
I want the real meaning
Don't fix me
It breaks my heart
To see you try

Don't fix you
And leave me for
Some other guy
And I sure will
Miss us when we're done
You're the real meaning of the sun
It shows you off to everyone
You're the real meaning of the sun
It shows you off to everyone
When I'm thinking about you fondly
Then I'm thinking about the only
Real meaning of the sun
You're the real meaning of the sun
It shows you off to everyone
You're the real meaning of the stars
They guide me to the places you are
The real meaning
I want the real meaning
