

Falling

Sweetbox

[Chorus]

I was falling, falling

I was running, running

You're just crawling, crawling

You're just hiding from it

I was falling, falling

I was running, running

You're just crawling, crawling

You're just hiding from it[V.1]

It's a shame

That you live on the safe side

It's a shame you hate to cry

It's a shame that you're not fighting to get more

It's a shame

That you're scared to take a chance

It's a shame you never dance

It's a shame you wanna live behind closed doors[Chorus]

I was falling, falling

I was running, running

You're just crawling, crawling

You're just hiding from it

I was falling, falling

I was running, running

You're just crawling, crawling

You're just hiding from it[V.2]

It's a shame

That you're afraid of getting hurt

You only learn by getting burnt

It's a shame you wanna stand outside the fire

It's a shame

That you think that I'm a fool

'Cause I don't live with rules

It's a shame you'll never get to understand[Chorus]

I was falling, falling

I was running, running

You're just crawling, crawling

You're just hiding from it

I was falling, falling

I was running, running

You're just crawling, crawling
You're just hiding from it[V.F]
You think that it's weak not to resist
And you don't live you life you just exist
But I won't be the one outside the fire
And I won't be the one that's scared to fly
I wanna live my life not merely just surviveOoh...
Yeah, yeah, yeah, yeah, yeah...[Chorus]
I was falling, falling
I was running, running
You're just crawling, crawling
You're just hiding from it
I was falling, falling
I was running, running
You're just crawling, crawling
You're just hiding from itI was falling, falling
I was running, running
You're just crawling, crawling
You're just hiding from itI Just falling, falling....Falling...Falling
