

# Hush

## Ll Cool J

Hush baby, wanna let ya know  
This is how it's gonna go  
Hush baby, wanna let ya know this is how it's gonna go  
If you wanna come and play gotta do it my way, my way, my way  
Hush baby, don't talk so much, just wanna feel ya touch  
Everything will be okay, if you do it my way, my way, my way, hush  
You feel so good, rest of my life I wish I could  
Hold you tight and take a flight out the hood  
Was I foul or just misunderstood?  
Mild-mannered or up to no-good  
It really doesn't matter, either way I should  
Maximize the moment and hold you close  
Jump in the drop spider and cruise down the coast  
Who loved you the most? I was never ghost  
When lives was on the line confusion in ya mind  
Runnin' outta time drama of all kind  
But there's faith in our mind we spiritually inclined  
Sometimes I flip, sometimes you flip  
Sometimes we wild out and act like lunatics  
We movin' too fast, the whole world's in a rush  
Everybody just hush  
Hush baby, wanna let ya know this is how it's gonna go  
If you wanna come and play gotta do it my way, my way, my way  
Hush baby, don't talk so much, just wanna feel ya touch  
Everything will be okay, if you do it my way, my way, my way, hush  
It's all a test, the pain, the drama the villa in the Bahamas  
The highs, the lows, the hoop-d, the Rolls  
The money flowin' certain doors that we go in  
The people we meet, the hands that we shake  
Whether it's Mortans or sizzla steak  
But everything will be okay  
If we do it my way, my way, my way  
'Cuz I believe in romance kissin' while ya slow dance  
Me bouncin' baby, no chance no matter the circumstance  
Whatever it takes girl, I'll swim to France  
'Cuz ya beauty's unmatched such a great catch  
Unconditional love, forever we are attached  
Deal with the drama, we can find our way back  
With or without the Maybach

Hush baby, wanna let ya know this is how it's gonna go  
If you wanna come and play gotta do it my way, my way, my way  
Hush baby, don't talk so much, just wanna feel ya touch  
Everything will be okay, if you do it my way, my way, my way, hush  
I can feel ya pain  
Like we simese twins connected by our brains  
Walkin' through the desert in the ice cold rain  
Wit you in my life ain't nothing's gonna change  
God willin', we still be doin' our thang  
When my six-pack's faded and rap is outdated  
But thats many years from now so don't rush  
Little mama just hush

Hush baby, wanna let ya know this is how it's gonna go  
If you wanna come and play gotta do it my way, my way, my way  
Hush baby, don't talk so much, just wanna feel ya touch  
Everything will be okay, if you do it my way, my way, my way  
Hush baby hush hush darling  
Hush baby hush hush, don't talk so much  
Don't talk so much, wanna feel ya touch  
Hush baby hush  
Hush baby hush  
Hush baby wanna let ya know
