

# Stay Young

## We the Kings

Let's burn our dreams into the skyline  
Tattoo our sweat in tears, forever you and I  
Hold your breath till we cross the sundown  
This is the moment, time is racing slow it down 'Cause you, a feeling I can't deny  
We are only here for one more night  
Scream it like you mean it  
One more time we'll tear down the building  
Come on, come on sing along, whoa  
Come on, come on stay young Let's light the kerosene tonight  
Spark up like fireworks exploding in the sky  
Kick down the new year and the future  
We can't get closer here, the walls are falling down 'Cause you, a feeling I can't deny  
We are only here for one more night  
Scream it like you mean it  
One more time we'll tear down the building  
Come on, come on sing along, whoa  
Come on, come on stay young We'll be holding on to this so tight  
Scream it like you mean it  
One more time we'll tear down the building  
Come on, come on sing along, whoa  
Come on, come on stay young Feel my breath, I'm alive when we're side by side  
Now this is dedicated to you Come on, come on sing along, whoa  
Come on, come on sing along  
Come on, come on sing along, whoa  
Come on, come on We are only here for one more night  
Scream it like you mean it  
One more time we'll tear down the building  
Come on, come on sing along, whoa  
Come on, come on stay young We'll be holding on to this so tight  
Scream it like you mean it  
One more time we'll tear down the building  
Come on, come on sing along, whoa  
Come on, come on stay young
