

This Is War

Ingrid Michaelson

It's a wonder at all
It's a wonder at all
It's a wonder at all that I'm alive
It's a wonder at all that I'm still standing
It's a wonder at all that I survived the war
Between your, between your heart and mine
Between your, between your heart and mine
I won't surrender
I will fight better
You lock me out and knock me down
And I will find my way around
I won't surrender
This is war, oh
It's a wonder at all that I can see
It's a wonder at all the sky's not falling down
It's a wonder at all that I decide to breathe
Anymore, anymore, anymore

I won't surrender
I will fight better
You lock me out and knock me down
But I will find my way around
I won't surrender
This, this is
This is war, this is war
I will run until I can't run anymore
Someone's got to lose
It's not gonna be this girl
This time, I won't surrender
I will fight better
You lock me out and knock me down
And I will find my way around
I won't surrender
I will fight better
This is, this is war
