Love Is The Answer

Sugar Ray

There will come a day when we transcend our pain
Until that day take it easy on yourself
Love is the answer
Makes no difference what you have heard
Love is the answer
You have got to trust in the word
Come on, come on, come on, come on
Come on, come on, come on, come on
There will come a day when we can finally rest
Until that day take it easy on yourself
Love is the answer
Makes no difference what you have heard
Love is the answer
You have got to trust in the word
Come on, come on, come on, come on
Come on, come on, come on, come on
Come on, come on, come on, come on
Come on, come on, come on, come on
Brothers and sisters I know you try so hard
Your heart breaks sometimes
But I know that things are gonna change
And we will find our happiness inside
Love is the answer
Makes no difference what you have heard
Love is the answer
You have got to trust in the word
Love is the answer
Makes no difference what you have heard
Love is the answer
You have got to trust in the word
Come on, come on, come on, come on
Come on, come on, come on, come on
Come on, come on, come on, come on
Come on, come on, come on, come on
