

# Breathing Underwater

## Hiatus Kaiyote

The words

In water

The words

In water

Material

Slowly unwind as I leave feathers behind

For your love, for your lover to find

Warm hands

Wrapped in blue linen from Torrington

For your love, for your lover to find

Wild rose

Jericho sun, and everyday stone

For your love, for your lover to find

Aorta

Tattoo to the artery with acute artistry

For your love, for your lover to find

Breathing breathing underwater

Bre-Brea

Breath you underwater

Pleasure

Melting your snowflake of lace down your face

For your love, for your lover to find

I could

Call your demons aside, soak them in Camomile

For your love, for your lover to find

Breathing breathing underwater

(I could) Bre Breath

Breath you underwater

To find

For your love, for your lover to find  
Breathing underwater
