

Bullets in the Sky

Million Dollar Reload

Vs1

Well it's a long way down and there's no way out
Got our senses tuned to overload, with no turnoff on this route
Got your gun in your right hand and your face in the dirt
And a target that's got no name, who's gonna get it first
And you know you gotta stay brave, if you wanna get home

Chorus

I've seen your blood red wars, I would do anything, I would give anything
I've seen your blood red wars, I would do anything, I would give anything
To stop those bullets in the sky, bullets in the sky, bullets
Bullets in the sky, bullets in the sky, bullets

Vs2

Who's your enemy, is it a dog eat dog
Pledge allegiance to coloured flags, killing in the name of God
Would you do it for yourself, carry out commands, as you lay on the front line
21 guns for your blood, is what you leave behind
And you know you gotta stay brave, if you wanna get home

Chorus

I've seen your blood red wars, I would do anything, I would give anything
I've seen your blood red wars, I would do anything, I would give anything
To stop those bullets in the sky, bullets in the sky, bullets
Bullets in the sky, bullets in the sky, bullets

(Solo)

Bullets in the sky, bullets in the sky, bullets in the sky
Bullets in the sky, bullets in the sky, bullets bullets bullets

I've seen your blood red wars, I would do anything, I would give anything
I've seen your blood red wars, I would do anything, I would give anything
To stop those bullets in the sky, bullets in the sky, bullets
Bullets in the sky, bullets in the sky, bullets
