

When We Kiss

Austin Morris

Well, hey you!
I miss that smile.
Have you seen my heart lately?
Maybe, oh, maybe, you've had it for a while?
Just know that I try to keep you awake.
So you can hear my heart beat and every single thing when I say...
When we kiss, I never wanna miss a second.
Being with you is like living up in Heaven.
And when, when you talk, its pretty darn cute.
Just know that I never want to lose you.
Just know that I never want to lose you.
You say (you say)
everything so right.
Its like you got a quick script and you read it real quick just to make me feel nice.
In my heart..
In my mind...
everything feels right.
When you say you love me, my soul flyâ€™s.
When we kiss, I never wanna miss a second.
Being with you is like living up in Heaven.
And when, when you talk, its pretty darn cute.
Just know that I never want to lose you.
Just know that I never want to lose you.
When we kiss, I never wanna miss a second.
Being with you is like living up in Heaven.
And when, when you talk, its pretty darn cute.
Just know that I never want to lose you.
Just know that I never want to lose you.
And I never want to lose you and I know I never will.
And I never want to lose you and I know I never will.
I know I never will.
Because...
When we kiss, I never wanna miss a second.
Being with you is like living up in Heaven.
And when, when you talk, its pretty darn cute.
Just know that I never want to lose you.
Just know that I never want to lose you.
