Zero 7

Lost in cheap delirium Searchin' the neon lights I move carefully Sink in the city aquarium Sing in the key of night As they're watching me Take me somewhere, we can be alone Make me somewhere, I can call a home 'Cause lately I've been losin' on my own Wrapped in silent elegance Beautifully broken down As illusions burst Too late to learn from experience Too late to wonder how To finish first Take me somewhere, we can be alone Make me somewhere, I can call a home 'Cause lately I've been losin' on my own Take me somewhere, we can be alone Make me somewhere, I can call a home Won't you take me home? Won't you take me home? 'Cause lately I've been losin' on my own Won't you take me home?
