

# You Play Too Rough

## Blue Six

Everybody gonna take their time  
With ten nights out gonna mess with your peice of mind  
Everybody gonna lose control  
Stop right now when you get where you wanna go  
Ooooooh  
Think that's enough  
Ooooooh  
Cause you play too rough  
Anybody gonna make it hap'  
When love comes down it will  
Shake you or make you blind  
Now you movin and you just can't stop  
When love comes callin and you wanna ruck  
Come on baby we can work the night  
Inside out afraid of the things you find  
Had something but you still want more  
Lose yourself when find what you lookin for  
Ooooh yoweyowap cause you wanna be loved  
Ooooh but you play too rough  
Ooooh think that's enough  
Ooooh but you play too rough  
Come on [pause:]Get down honey now you make a scene  
Livin on page six of the magasine  
What you doing everybody knows  
The way you get it makes you lose your soul  
You got the fast transmition but you popped the weed  
More more money doesn't make it right  
Tryin to hide the pain is it worth the fight  
Ooooh yoweyowap cause you wanna be loved  
Ooooh but you play too rough  
Come on
