

# Sweet Lover

Justin Nozuka

It came in from the cold  
And it taught me to know  
Just what means to be low  
Why Promise sweet lover, you're gonna lead me, I know  
Promise sweet lover, you're gonna lead me, I know  
Promise sweet lover you're gonna lead me, I know  
Promise sweet lover, you're gonna lead me, I know The light let me know  
And the wind let me know  
Just what means to let go  
Why  
Why  
Why I know that, I know that there's no way that I live alone  
Promise sweet lover, you're gonna lead me, I know  
I know that, I know that there's no way that I live alone  
Promise sweet lover, you're gonna lead me, I know  
I know that, I know that there's no way that I live alone  
Promise sweet lover, you're gonna lead me, I know  
I know that, I know that there's no way that I live alone  
Promise sweet lover, you're gonna lead me I know
