Just Leave

Case

half the time i feel im not enough for you
and half the time not even sure your there
and now you say our love is not enough for you
and honestly i cant even say that i care
well if you leaving just go on leave
don't gotta worry what happens to me
girl if you leavin just go on and leave
aint gotta worry what happens to me
so many year still theres no happy you
thru all your tears you feel love is draining you
and finally you say you wanna move on
but honestly it wont hurt to see you gone
girl if you leaving just go on leave
don't gotta worry what happens to me
(ill be alright ill be alright)

if you leavin just go on and leave
(if you gonna leave then leave baby)
aint gotta worry what happens to me
if you leaving just go on leave
(if your leaving baby, if your leaving gone on and leave)
don't gotta worry what happens to me
(don't worry bout, don't worry bout)
if you leavin just go on and leave
(bye bye, bye bye baby)
ain't gotta worry what happens to me
if you leaving just go on leave
(if your leaving baby, finally)
don't gotta worry what happens to me
(i thought i was good to you but i cause we're thru)
if you leavin just go on and leave
(if you leave if you leave go on)
aint gotta worry what happens to me
