Never had a spanner on her
Says she sees it straight
Never took the detour
Always licks her plate, hey
Got a sticky finger
On someone I know
Best of everything now
See the money roll
Stupid people, I won't follow
Stupid people, I won't follow
Build a better country
Fight a war or two
You always need something
Just to get you through
Stupid people, I won't follow
Stupid people, I won't follow
Stupid people, I won't follow
Stupid people, I won't follow
Ten times I shouted at him
Say it over again, again
Words just melt around you
You're like a pig in a pen
Stupid people, I won't follow
Stupid people, I won't follow
Stupid people, I won't follow
Stupid people, I won't follow
