Looking for a Way In

Cornershop

From the East to the West
To the shit that I'm in
To the way its going
The way its moving
And I'm moving all the obstacles
To get it right
Quick firing
Looking for a way in, way inI reason by the rest
Don't ever waste it
Listen to the sayings!
I'm looking for a way in, alrightBest sensitive
The course I'm flying
My only way out
Is looking for a way inFrom the East to the West
To the shit that I'm in
T othe way its swaying
The way its moving
And I'm moving all the obstacles
To get it right
Quick firing
Looking for a way in, way in"Children you just open it up now"From the Est through the North
To the shit that I know
To the way its swaying
The way its moving
My way out is
Is looking for a way in
And I'm moving all the obstacles
To get it right
Quick firing
Looking for a way in, way in
