# I Like The Way

## Darren Hayes

Somewhere inside my evolution
Karmically I seek retribution
Looking for love in physical beauty
Desire is the drug of the bourgeoisie
And now I try to intellectualize
Like a glimmer of good in a bad man's eyes
I am consumed by the flesh haunting me
I know temptation taunts the empty
So pour yourself over me
Until there's nothing left to see, yeah yeah
Because I like the way you move in the dark
I like the tension, the tension and the spark
And the decadence of giving into desire
Creates such entropy within
Looking for love in spiritual faces
Blind to the art of fabrication
I'm like a baby sucking mama's milk
Want to drink my fill and then some leave me alone
I always thought I was better than this
But temptation tempts the temptee
Pour yourself over me
Until there's nothing left to see, yeah yeah

Oh, because I like the way you move in the dark
And I like the tension, the tension and the spark, oh
Because I like the way you move in the dark, oh
You know I like the tension
The tension and the tension and the spark, oh
This physicality shifting me chemically
Such power over me it's just desire
I know it's treachery, I know it's just skin deep
I know I should resist, I'm just too tired, too tired
There's just one thing missing
One thing missing here is love
I like the way you move in the dark, yeah
I like the tension, the tension and the spark
You know, I like the way you move in the dark
You know, I like the tension
The tension and the tension and the spark

So pour yourself over me
Until there's nothing left to see
There's just one thing missing
One thing missing
One thing missing here is love
