

# You Talk Too Much

## George Thorogood

You talk too much, you talk too much

I can't believe the things that you say everyday

If you keep on talking baby

You know you're bound to drive me away Now you get on the telephone with your girlfriend

Your conversation baby ain't got no end

Yakety-yakety-yakety-yak all the time

You keep on talking baby drive me out of my mind

You talk too much

I can't believe the things that you say everyday

If you keep on talking baby

You know you're bound to drive me away Well I laid out in the afternoon I start to nappin'

You walk into the room with them jaws a-flappin'

You keep that motormouth moving morning, noon and night

You keep on talking baby make my head turn white

You talk too much

I can't believe the things that you say everyday

If you keep on talking baby

You know you're bound just to drive me away I think you're trying to put me through some kind of test

I'm begging you baby won't you give it a rest

You talk about people that you don't even know

Keep it up baby I'm gonna pick up and blow

You talk too much

I can't believe the things that you say everyday

If you keep on talking baby

You know you're bound to drive me away
