Tribute

Unwritten Law

Deafness is a blindness deny through that burn inside
Will life go on any longer a blank page in the book of life
Conceive this time behind me because the future is gone
Meet face to face with a bad dream the thought remains
It can't go on
Will you be standing there
Call my name at the ending light
I'll set my soul beside you
God forgive this ending life
Dave where are you going
This burn in my heart is growing
Down on myself, I don't want to be
Set my soul apart constrict the feelings
I want to break free, escape

Deafness is a blindness deny through that burn inside
Will life go on any longer a blank page in the book of life
Conceive this time behind me because the future is gone
Meet face to face with a bad dream the thought remains
It can't go on
Will you be standing there
Call my name at the ending light
I'll set my soul beside you
God forgive this ending life
Dave where are you going
This burn in my heart is growing
Down on myself, I don't want to be
Set my soul apart constrict the feelings
I want to break free
