

Guilty as Charged

Agent Steel

Genesis, now we're to stay
Our evolution stunted, earth betrayed
Trapped inside this mortal cage
Repelling masses, now your soul's in rage You're all guilty as charged
Guilty as charged Eyes of fire stare into space
Carcass showing shadows gray
Living in the final age
You're falling in, in the hands of fate You're all guilty as charged
Guilty as charged In the beginning the universe fell
Emanating the formula DNA
The fraction $\frac{2}{3}$ rds, the number 23
Now we have one Adam and Eve
Before the jury of the Council
And she's been given her final verdict Guilty as charged Now you've become one of them
Nobody cares at all they'll never win
Lakes of fire forged in hate
Prepared for, for the skeptics race You're all guilty as charged
Guilty as charged
