

# The Fear Of Being Found

## Blaq Audio

I have been a world apart stuck in between time  
Head into the ground I'm found falling through fault lines I feel see through, can you see through me? Could I  
change one thing? Could I change your mind?  
Shall we burn it just like the last time?  
I can't change a thing, can't explain why I never felt it  
Not even the first time Raise a glass and toast the flame just like the old days  
Swallow, but be careful, don't drown  
The new ways you could say, would you change this time?  
I'll begin to change my mind when you can explain why I feel see through, can you feel me? Could I change one  
thing? Could I change your mind?  
Shall we burn it just like the last time?  
I can't change a thing, can't explain why I never felt it  
Not even the first time Could I change one thing? Could I change your mind?  
Shall we burn it just like the last time?  
I can't change a thing, can't explain why I never felt it  
Not even the first time Shall we? Nothing's different  
Shall we? Nothing's different  
Shall we? Nothing's different  
Shall we? Nothing's different Could I change one thing? Could I change your mind?  
Shall we burn it just like the last time?  
I can't change a thing, can't explain why I never felt it  
Not even the first time Could I change one thing? Could I change your mind?  
Shall we burn it just like the last time?  
I can't change a thing, can't explain why I never felt it  
Not even the first time
