

Brother

Refuse the Conformity

Took a walk off cherry hill
About a mill off pizza ville
is where your find me lost and insecure

My only wish is we could chill
closefisted of these pills
got me locked up, like an animal
just like an animal

you say your trying to protect me
and I think your gonna try and brack my soul
and im just waiting to be set free
so I can finaly go home

I'm thinking on a broken heart
and im never gonna solve it
broke your little locket

oh the alarms
better on the back ache
bleeding in the closet

remember way back then
last September when we first meet
on east broad street
where half our minds were set spent

Last summer when i was at the beach
we drove three hours just to meet
Came home and ma-shaded like no ones ever seen
like no ones ever seen before

say your trying to protect me
and think your gonna break me soul
and im just waiting to be set free
so i can finally go home
and im beating on a broken heart

never gonna solve it, broken little locket
open arms

better on a back ache leaning on the closet now

and im never letting go
and your gonna listen to me
cause' im never letting go

and your gonna listen to me
cause' im never letting go

and your gonna listen to me
cause' im never letting go

take a right off of cherry hill
about a mill off pizza ville
is wear your find me lost and insecure

my only wish is that we could chill
because im claustrophobic of these pills
got me locket up alone
like an animal

END
