# Nature

## Baps

I know
Oh, Oh Yeah

Hey baby
Why you rushing
Let's sit back and watch the flowers grow
Why you want
To swim against the tide
Let's lay and watch the river flow

Here in god's creation
There is always a reason
I know, that love is there for us
Yeah

[Chorus]

I don't want to watch no movie
Let's sit and watch the stars put on a show
If you want to win my favor
Be creative, and show me your flavor
Cause here in god's creation
For everything there is a session
Let go Let life
Let love let god

[Chorus]

[Bridge]
Like the sun shines and
The wind blows
Like the birds fly
And the moon glows
If I am meant for you and
You are meant for me
Then we will flow together
Ever lastly

[Chorus: x2]

Out
Baby we should sit, watch the flowers grow
Baby we should sit, back and watch the moon glow
Baby, we should feel the wind blow

First you plant a seed
And then it grows and
Then it blooms
And it dies
That the cycle of life
Same goo's for you and I
Maybe this time we'll get it right

Go with the flow
Maybe we'll get it right
