

# Nature

## Baps

I know  
Oh, Oh Yeah

Hey baby  
Why you rushing  
Let's sit back and watch the flowers grow  
Why you want  
To swim against the tide  
Let's lay and watch the river flow

Here in god's creation  
There is always a reason  
I know, that love is there for us  
Yeah

[Chorus]

I don't want to watch no movie  
Let's sit and watch the stars put on a show  
If you want to win my favor  
Be creative, and show me your flavor  
Cause here in god's creation  
For everything there is a session  
Let go Let life  
Let love let god

[Chorus]

[Bridge]  
Like the sun shines and  
The wind blows  
Like the birds fly  
And the moon glows  
If I am meant for you and  
You are meant for me  
Then we will flow together  
Ever lastly

[Chorus: x2]

Out

Baby we should sit, watch the flowers grow  
Baby we should sit, back and watch the moon glow  
Baby, we should feel the wind blow

First you plant a seed  
And then it grows and  
Then it blooms  
And it dies  
That the cycle of life  
Same goo's for you and I  
Maybe this time we'll get it right

Go with the flow  
Maybe we'll get it right
