## Feeder

I know you like it  
You like it like that  
You like it  
I hope you like it  
There's no holding back  
You like it  
I know you like it  
You like it like that  
You like it  
I hope you like it  
There's no holding back  
You like it  
I know you like it  
You like it like that  
You like it  
I hope you like it  
There's no holding back  
You like it  
I know you like it  
You like it like that  
You like it  
I know you like it  
You like it like that  
You like it  
Is it the right way  
Is it the right way home?  
Lost inside this desert silence  
Is it the right way  
Wait 'til the morning comes  
Is it the right,  
Is it the right,  
The right way  
I kept on driving  
Tryin' to get back  
Kept driving  
Just keep on driving  
Facing the blast  
Keep driving  
I kept on driving

Tryin' to get back  
Kept driving  
Just keep on driving  
Facing the blast  
Keep driving  
I kept on driving  
Tryin' to get back  
Kept driving  
Just keep on driving  
Facing the blast  
Keep driving  
Is it the right way  
Is it the right way home?  
Lost inside this desert silence  
Is it the right way  
Wait 'til the morning comes  
Is it the right, is it the right  
The right way  
I know you like it  
You like it like that  
You like it  
I hope you like it  
There's no holding back  
You like it  
I know you like it  
You like it like that  
You like it  
I hope you like it  
There's no holding back  
You like it  
I know you like it  
You like it like that  
You like it  
I hope you like it  
There's no holding back  
You like it  
I know you like it  
You like it like that  
You like it  
I know you like it  
You like it like that  
You like it  
Is it the right way  
Is it the right way home?  
Lost inside this desert silence

Is it the right way  
Wait 'til the morning comes
