About the Moon

Rilo Kiley

the moonlight won't hide
the moonlight won't hide
the moonlight won't hide
these cryin' eyes
these cryin' eyesthe highways are free and clear
the highways are free and clear
the highways are free and clear
they won't take me away from here
they wont take me away from here.my folks are long gone
my folks are long gone
my folks are long gone
and my mind is sure to go
and my mind is sure to go (sure to go)
and my mind is sure to go (sure to go)
and my mind is sure to go
