Ignition

Chris And Conrad

Start it up, turn it on, we can ride this storm
A grip of hope in our hands for the coming dawn
Up to our necks in complexities
Causing us to pause as we collect our thoughts
So don't blink if you wanna come cross the border
Take a look around or come test the water
We won't stop till we see the morning
So welcome to the quiet before the storm hits
Turn on, turn on the ignition, everybody
Come on, come on and turn on the ignition
Come on, come on and turn on the ignition
Come on, come on and turn on the ignition
Comatose, half-hearted, room temperature's fine
Sleep walking, no dream is even filling our minds
Earth shaking, we be quaking like a wake up bomb
This ain't no trouble overseas, no Vietnam

So don't blink if you wanna come cross the border
Take a look around or come test the water
We won't stop 'till we see the morning
So welcome to the quiet before the storm hits
(Take it up a notch, come on, come on turn it up a notch)
Turn on, turn on the ignition, everybody
Come on, come on and turn on the ignition
Come on, come on and turn on the ignition
Come on, come on and turn on the ignition
Your sleep walking, I'm sleep walking
Your sleep walking, I'm still talking
Come, spark the parts in me that all but died
Jump start my heart and wake the sleeper inside
Hold up the flag 'cause it's ride or die
Hold up the flag 'cause it's ride or die
