Propinquity

The Elwins

I sure hope that you're not riding
on a bicycle for two
I've seen my share of girls, and well,
there has been no one like you
Your smile makes me forget my worries
While your eyes say " I love you"
My heart is jumping, arms goosebumping
and it's only been a minute or twoI can't help but wonder
If you'll slip away just like the restWhat if we had met from the start?
Would my words come out then fall apart
It feels like when you're around
It's a good thing I have found
And while we're mingling
I'll hold you near to me
Because it feels like when you're around
It's a good thing I have foundA pocketful of dried fruit peels
I prefer to potpourri
It's just the pattern of the rose
that is tingling my nose
And each day is four
Until the day I get to see your more
If it's a dream I'm in, well
I don't ever wanna wake upI can't help but wonder
If you'll slip away just like the restWhat if we had met from the start?
Would my words come out then fall apart
It feels like when you're around
It's a good thing I have found
And while we're mingling
I'll hold you near to me
Because it feels like when you're around
It's a good thing I have foundI hope you can tell
That I mean I you only well
You get inside my head
and I wanna be with you
And as the days go by
I sit and wish that I was the guy
who found you firstIf I had it any other way
than I am having today
I would be so happy and excited
